Experienced Teachers

Mike Tucker has 28 years experience teaching and coaching high school students; twenty-five of those years have been in the Deer Creek community. He was selected 2006 teacher of the year at Deer Creek High School. His diverse teaching/coaching style appeals to all learners. He has taught subjects to students in the Pre-AP program, as well as, students with special learning needs. In addition, he has taught driver's education in six different high school settings. He helped initiate the first driver's education program at Guthrie Job Corps and has taught defensive driving courses at University of Central Oklahoma.

Randy Smith has 37 years experience as a coach and a teacher in the Putnam City School District. Randy not only taught in the classroom and coached many different sports in his career, but he also has many years experience teaching driver's education. He is college certified in driver's education and has his certification through the Oklahoma Department of Public Safety.

Students must receive 10 hours of classroom instruction and 6 hours of "behind the wheel" driving instruction for completion of driver education. A 2007 or 2008 vehicle, which has an excellent Consumer Report safety rating, will be used for the driving portion. The classroom and driving instructor are certified by the Department of Public Safety.
